Question Can you please provide me with detail's about the form of Australian aid being given to Afghanistan for women' s education and their safety in accessing education. I am involved with the Australian Federation of Graduate Women, part of the International Federation of University Women. We are women graduates who are concerned with enabling women to access education. We are looking to develop some resolutions and plans for actions for our fellow National Federal Associations within IFUW, as well as suggestions for some practical advocacy. We have a large number of fellow associations around the world so we are looking at a form of concerted advocacy. We would be very grateful if we could find out more about what Australia is currently doing and how we can support that. Thank you for your consideration.
Kind regards
Lynda
